DESCRIPTION

The patented Discovery optical technology also applies to the square and rectangular versions. These geometric shapes allow the model to have even more freedom to interact with the space, thanks to the possibility of hanging the vertical or suspended element at any angle, in all cases producing a comfortable light with UGR <19. Discovery succeeds in encapsulating the values, knowledge, innovation and expertise of Artemide. Unparalleled optoelectronic expertise coupled with a strong culture of design and extensive technological know-how produces highly versatile solutions which have the surprising ability to translate innovation into the emotion of perception.
