Installation mode 2
see page 4

DARF SUSPENSION

INSTALLATION INSTRUCTIONS | SEPTEMBER 2023

Installation mode 1

Note:

1. The length of the power cable is longer than the length of the rope, so that the rope can bear the weight of the luminaire.
2. Only one side lamp holder is electrically connected. When installing a lamp tube, connect the end of lamp tube marked AC Input to the side of power cable.

Connecting the lamp tube on the wrong side will cause unrepairable damage.

DIMENSIONS

Installation mode 1

MOUNTING INSTRUCTION

- 1 Mount the two rope holders.
 - a. Loosen the ceiling fixation from the cylinder with the allen screw.
 - b. Mount the ceiling fixation of the rope holder with a screw (screw is not included).
 - c. Re-attach the cylinder and tighten with the allen screw.
- 2 Place the O-rings on each side of the lamp tube and mount the tube inside the lamp holders.
- 3 Use the buttons on the lamp holder to assure the rope over the LED tube is tensed.
- 4 Adjust the rope to the desired length. When the button is pressed, the rope can be pulled (up to 50mm excess rope can be saved inside the rope holder).
- 5 Mount the ceiling base: please see page 3.

Die Netzanschlussleitung muss immer außer Reichweite von Kindern verlegt werden.
Mains supply wiring shall be secured without of reach of children.
Tenere il cavo di rete lontano dalla portata dei bambini.
El cableado de alimentación eléctrica deberá siempre ser realizado lejos del alcance de niños.
Installez les câblages électriques hors de portée des enfants.

starter not needed
